

TRI-OSD

OIL SPILL DISPERSANT

TRI-OSD; It is a water-based concentrated product used to separate and distribute oil-derived leaks such as oil, fuel and fuel-oil.

PRODUCT FEATURES AND BENEFITS

- It is a water-based product and biologically degradable in nature.
- Deposits such as mineral oil, crude oil, fuel-oil etc. have a high dispersant and decomposing effect.
- It does not contain solvents and other toxic substances. Biologically degradable in nature.
- It is easy to use and economical.

DOSAGE AMOUNT AND INTENDED USE

The amount of use varies according to the amount of oil or fuel-oil spilled.
3-4% diluted product is used in low-rate oil, fuel and fuel-oil deposits.
It should be used by diluting at the rate of 5-10% for higher ratio oil and fuel-oil.
TRI-OSD is used by spraying on leakage.
1 lt chemical average 18-20 m² is used for oil, fuel and fuel-oil on the surface.

NOTE: Please review the MSDS reports before use for safety, occupational health and safety.
