

TRI-OSA

OIL SPILL ABSORBENT

TRI-OSA is a powder absorbent used to absorb and eliminate oil, fuel, solvent hydrocarbon or petroleum derivative leaks on land, deck or coastal areas.

PRODUCT FEATURES AND BENEFITS

- It is a non-toxic product obtained from natural mines.
- It does not react with the applied liquid, if any, it eliminates its flammable property.
- With the advantage of its very fine particle structure, it provides maximum liquid absorption even on rough surfaces.
- It is easy to use and economical.

DOSAGE AMOUNT AND INTENDED USE

At the same rate (1/1) as the amount of spillage, TRI-OSA is covered to completely close the leak. It is ensured that TRI-OSA absorbs the leakage by keeping it for 5-10 minutes. Waste should be collected from the surface with the help of equipment such as broom.

NOTE: Please review the MSDS reports before use for safety, occupational health and safety.
