

# **TRI-OSE**

## **OIL SPILL EMULSIFIER**

**TRI-OSE;** It is a solvent-based oil leakage dispersant concentrate product. It is a biodegradable hydrocarbon product.

### **PRODUCT FEATURES AND INTENDED USE**

- It breaks down oil, fuel, mineral oil, crude oil and other oil derivative deposits into very small pieces with a high dispersion effect.
- It is a product containing hydrocarbons that can be biodegraded in nature.
- It is easy to use and economical.

### **DOSAGE AMOUNT AND INTENDED USE**

The amount of use varies depending on the amount of spilled oil and fuel-oil.

2-3% diluted product is used in low-rate oil, fuel and fuel-oil deposits.

It can be used by diluting 4-6% for higher-rate oil and fuel-oil.

TRI-OSE is used by spraying directly on the leak.

1 lt chemical shall be sufficient for oil, fuel and fuel-oil on an average surface of 35-40 m<sup>2</sup>.

**NOTE: Please review the MSDS reports before use for safety, occupational health and safety.**
