

# **TRIO COOLANT WR**

## **ETHYLENE GLYCOL BASE COOLANT CHEMICAL / ANTI-CORROSION**

**TRIO-COOLANT WR;** It is a monoethylene glycol based, metal corrosion inhibitors reinforced concentrated product that protects against freezing and overheating in all open and closed cooling systems.

### **PRODUCT FEATURES AND BENEFITS**

- It prevents the formation of lime, corrosion and foaming in the cooling system.
- It protects all closed and open cooling systems against freezing and overheating. (-78°C / +153°C)
- It increases system life and efficiency.
- It is easy to use and has a wide application area.
- It increases the efficiency of the system by preventing the formation of sediment and corrosion in the cooling system.

### **DOSAGE AMOUNT AND INTENDED USE**

<b>TRIO-COOLANT CONCENTRATION</b>	<b>PROTECTION TEMPERATURE</b>
<b>30%</b>	<b>-13.50°C</b>
<b>40%</b>	<b>-22°C</b>
<b>50%</b>	<b>-32°C</b>
<b>60%</b>	<b>-44°C</b>
<b>70%</b>	<b>-56°C</b>
<b>100%</b>	<b>-78°C</b>

**NOTE: Please review the MSDS reports before use for safety, occupational health and safety.**
