

# **TRIO FLOOR CONTROL**

## **POLISHED SURFACE CARE AGENT**

**TRIO-FLOOR CONTROL;** It is a brightening, polished care product used in daily cleaning and maintenance of all kinds of water resistant surfaces. It is a liquid concentrated product used for the maintenance and cleaning of polished floors frequently used by people in hotels, accommodation facilities, shopping malls, hospitals, clinics, etc.

### **PRODUCT FEATURES AND BENEFITS**

- It is a long-lasting, bright, hard, durable ideal ground care material for polished floors where human traffic is intense.
- It forms a film layer on the surface and gives the floor a bright appearance.
- It is also used for daily cleaning of places such as workplaces, hospitals, clinics, restaurants and hotels.
- It has cleaning feature. It delays contamination.

### **DOSAGE AMOUNT AND INTENDED USE**

Depending on the degree of contamination of the surface, 400-600 ml is added to 10 L of water if it is less contaminated, 600-800 ml if it is medium contaminated and 800-1000 ml if it is very contaminated. It is applied to the surface with a wet mop apparatus.

**NOTE: Please review the MSDS reports before use for safety, occupational health and safety.**
