

# **TRIO LIME CLEANER**

## **LIME REMOVER**

**TRIO-LIME CLEANER;** It is an acid-based product used for cleaning purposes after the discharge of loads such as lime and limestone in warehouses.

### **PRODUCT FEATURES AND BENEFITS**

- Thanks to its strong acidic structure, it effectively removes lime, limestone and salt residues from the warehouse surface.
- Thanks to the corrosion inhibitors it contains, it does not cause corrosion on the surfaces it is applied.
- It can be applied on all metal surfaces except for sensitive metals such as aluminium, zinc, copper, galvanizing etc.
- It is a concentrated product and it is easy to use.

### **DOSAGE AMOUNT AND INTENDED USE**

Parts that are large enough to be cleaned by hand must be removed mechanically before starting chemical cleaning. Care should be given that the surface should be dry before use. The dilution rate of the product varies depending on the pollution rate.

**SPRAYING-BRUSHING METHOD;** Depending on the amount of pollution, the solution prepared in 1/2-1/3 ratio is sprayed on the surface or applied on the surface with a brush. It is expected to react on the surface for 15 minutes and washing is performed with pressurized water.

**NOTE:** Please review the MSDS reports before use for safety, occupational health and safety.
