

TRIO MULTI RAPID CLEAN

BROADSIDE CLEANER

TRIO-MULTI RAPID CLEAN; It is a concentrated product used in the cleaning of the deposits caused by the surface treatment of oil, carbon or air contaminants on the ship.

PRODUCT FEATURES AND BENEFITS

- It is a water-based product and does not contain hydrocarbon and solvent components. Biologically degradable in nature.
- It is not corrosive, it does not cause deformation on ordinary surfaces.
- It is an economical product, it is easy to use.

DOSAGE AMOUNT AND INTENDED USE

The most suitable form of use is spraying (spraying). After the concentrated product is sprayed on the surfaces and allowed to react for 3-5 minutes, cleaning can be accelerated by using a brush and sponge. After cleaning, rinse with water or by wiping method. It is recommended to use the product in concentrated form.

NOTE: Please review the MSDS reports before use for safety, occupational health and safety.
