

# **TRIO TURBO CLEANER / QX**

## **TURBO CHARGER CLEANER**

**TRIO-TURBO CLEANER / QX;** It is a strong solvent-based concentrated product developed for the cleaning of the compressor side of turbochargers.

### **PRODUCT FEATURES AND BENEFITS**

- It does not leave residue after cleaning. It is emulsifying.
- It prevents costly downtime.
- It is simple and economical to use.

### **DOSAGE AMOUNT AND INTENDED USE**

It is recommended to clean the turbochargers with 25% solution for air side cleaning. The solution, which is prepared at the rate of 25%, is placed in the dosing container and injected within 10 minutes and rinsed by injecting water to eliminate the emulsified sediments.

**NOTE: Please review the MSDS reports before use for safety, occupational health and safety.**
